

## MODEL SCHOOL BOARD RESOLUTION

*Thank you to the Honesty for Ohio Coalition for their assistance in creating this draft resolution.*

Right now, our state lawmakers are starting to craft the 2026-2027 state budget. Although legislators promised Ohioans four years ago that they would fully and fairly fund Ohio public schools in the 2026-27 Budget, Speaker of the House Matt Huffman and his allies proposed a substitute budget bill that threw the Fair School Funding Plan out the window. In fact, their budget underfunds public education by \$2.75 billion.

Ohio has the resources we need to fully and fairly fund our schools, Speaker Huffman and his allies simply want to allocate our public funds elsewhere. Their budget proposal expands funding for vouchers to unaccountable private schools and also gives \$600 million for the Cleveland Browns to build a new stadium outside the city.

We are asking school boards and school superintendents to be vocal in their defense of the Fair School Funding Plan. By passing a resolution calling for lawmakers to pass the plan, they will help build the movement to protect public education in Ohio.
